BIG NAVY DIRIGIBLE MAKES 1200 MILE FLIGHT

SUCCESSFUL RUN FROM NEW JERSEY TO ST. LOUIS, MO.

ARRIVES THREE HOURS AHEAD
OF SCHEDULE, FLEW TWO
HOURS DOWN TOWN

DETACHMENT OF 200 SOLDIERS
TUGGED HALF HOUR TO MOOR
GIANT AIR SHIP

(By United Press)
St. Louis, Mo., Oct. 2.—The ZR-1 arrived here at 4 a. m. today, completing its 1,200-mile non-stop trip from Lakehurst, N. J. The big navy dirigible arrived at the St. Louis flying field at Bridgeton three miles from here three hours ahead of schedule, and for two hours the big ship loafed through the downtown district.

At 6:15 the ship returned to the field, where an army detachment pulled it to its moorings.

The ZR-1 was 24 hours in the air, having left Lakehurst Field at 6:50 a. m. yesterday. The ship maintained a speed throughout of more than 55 miles an hour.

The airship was moored at the St. Louis field an hour for refueling the engines and feeding the 42 men of her crew. Due to the postponement of the International air races to the last three days of this week, however, air board officials are making an attempt to have the ZR-1 stay overnight.

The dirigible was scheduled to leave here at 11 a. m. on a non-stop flight back to Lakehurst, passing over Chicago and Detroit.

It took more than half an hour for a detachment of 200 soldiers to get the big ship to her moorings, which was finally accomplished and the crew headed for a hot breakfast at 7:45.

GIANT AIRSHIP ON RETURN TRIP

St. Louis, Mo., Oct. 2.—The giant naval airship ZR-1 after a visit of a few hours here left at 10:10 a. m. today on the return trip to Lakehurst, N. J. The silver monster left in a northerly direction, heading directly for Chicago, where it is due to arrive between 2 and 4 p. m. today.

Without a stop, the ship will fly to Toledo, Cleveland, Detroit, thence heading back to the home hangar at Lakehurst. The distance on the return trip will be around 1400 miles. The straight line journey here from Lakehurst totalled 1,000 miles. Thirty-six tanks, each containing 133 gallons of gasoline, were loaded into the ship as the crew of 42 ate hot breakfasts and puffed cigarettes. After an hour and a half on the ground, the ship was released and started again from the flying field over St. Louis, then headed into the north.

The great ship arrived here at 4 a. m. today, three hours ahead of schedule, and flew over the city until 6:45, when a landing was made. "We followed our course directly into the storm, and weathered it," Capt. Frank McCreary, commander of the ship, said as he alighted after piloting the dirigible on the non-stop journey.

The ship's wireless got hourly head winds and a storm between weather reports and was advised of Lakehurst and Pittsburgh shortly after it left the New Jersey field at 6:59 a. m. yesterday. "We were then travelling about 30 miles an hour, but we didn't waver," McCreary said. "We maintained an altitude of from 3,000 to 4,000 feet throughout," he told the United Press.

Rear Admiral William A. Moffett head of the naval flying service got on the ZR-1 when it stopped here. He will ride as far as Detroit, it was said, although the ship is not scheduled to stop there.

The dirigible will not fly over Lake Michigan to Detroit, but will

GERTRUDE AHERTON NOVEL ORDERED OFF SHELVES OF LIBRARY

Rochester, N. Y., Oct. 2.—As the result of a protest by the Monroe county W. C. T. U., Mayor Van Zandt has ordered "Black Oxen," a novel by Gertrude Ahernton, removed from the shelves of all public libraries in the city.

In the report to the mayor, an official of the W. C. T. U. delegated to read the book, declared it was unfit for the minds of young people. The book deals with rejuvenation through gland operations.

CHARGE MCGRAWS WITH RECEIVING STOLEN PROPERTY

(By United Press)
Stillwater, Minn., Oct. 2.—Martha McGraw, charged with receiving stolen property, pleaded not guilty when arraigned here today, and was bound over to the district court under \$5,000 bond. Ed McGraw, her husband, was also charged with receiving stolen property, and is being sought.

The couple are believed by authorities to be members of a gang which has robbed stores in southern Minnesota recently. Loot valued at \$15,000 was found in cottages owned by them at Willeine and Wildwood, half way between Stillwater and St. Paul.

Washington county officials expect to send the McGraws to Wabasha, Minn., Thursday to face charges of grand larceny in connection with the robbery of a store at Plainview.

GOVERNMENT PILES UP BIG SURPLUS

(By United Press)
Washington, Oct. 2.—The government piled up a surplus of \$180,484,958 in the first quarter of the present fiscal year, which ended September 30, the treasury department's financial statement issued today revealed.

Greatly increased receipts, totaling \$972,024,995, and heavy curtailment of expenses, amounting to \$791,540,036 accounted for the surplus. At the same time the public debt was reduced \$224,000,000. It is now \$22,125,000,000.

Wife Publicly Whips Doctor-Husband, Nurse

Paterson, N. J., Oct. 2.—Dr. Theodore Bender, Paterson and Martha Wagner, a trained nurse, were publicly whipped by the physician's wife, Mrs. Mercy Alice Bender, while they were in custody of Constable William Van Orden. Mrs. Bender used her husband's belt which he wore in the World war.

STRAW HAT IS CAUSE OF 2 DEATHS

(By United Press)
St. Paul, Oct. 2.—A two-dollar straw hat is blamed by police for two deaths.

Three months ago Harry Simons accused Harry Somers of stealing the hat. In the argument that followed Simons shot Somers to death. Late yesterday police found Simons dead in his cell. He hanged himself with a rope of blankets.

PASSED OVER CARLINVILLE, ILL.

Carlinville, Ill., Oct. 2.—The navy dirigible ZR-1, flying from St. Louis to Lakehurst, passed over Carlinville at 11:15 a. m. Carlinville is approximately 50 miles from St. Louis.

PASSED OVER SPRINGFIELD, ILL.

Springfield, Ill., Oct. 2.—The ZR-1 passed over Springfield at 12:14 p. m.

LAST MONARCHIST REBELS IN FORT SURRENDERED

SOME HEAVY FIGHTING AT THE
FORTRESS OF KUES-
TRIN

SURRENDER FOLLOWED A SERIES
OF ULTIMATUMS BY
GOVERNMENT

(By United Press)
Berlin, Oct. 2.—The last of the monarchist rebels holding a section of the fortress of Kues-trin surrendered to government forces at 5 a. m. today.

There was heavy fighting, and an official statement admits a considerable number of dead and wounded.

The final battle took place when monarchist who were holding only the armory of the fortress attempted a sortie to rescue 30 of their comrades who had been made prisoners by the regular troops.

The surrender of the rebels followed a series of ultimatums from the government forces and a brief note which said:

"Unless you surrender by 5 a. m., we will proceed with strong re-enforcement to destroy you."

The rebels ran up the white flag at 4:45 a. m. and surrendered their arms.

"Sauerkraut Day" Is Revived at Springfield

Springfield, Minn., Oct. 2.—Revival of "Sauer Kraut day", originated by business men several years ago, will take place on Saturday, Oct. 6. The sauer kraut dinner will be served at Lehrer's hall at noon.

Mayor Louis Kreitinger of Springfield will deliver an address at the dinner. Preceding the dinner, Senator-elect Magnus Johnson will speak in Anderson's park.

The Orpheus band will furnish music for the event and in the afternoon the horseshoe pitching contest will be conducted.

"Feeling Good and Doing Well," Papyrus

New York, Oct. 2.—"Feeling good and doing well" was the official report from Belmont park, where Papyrus, the English derby winner, is starting light training for his race here Oct. 20 with either Zev or My Own.

Basil Jarvis, trainer of the British thoroughbred, said his charge had benefitted greatly with a change to cool weather.

WILLIAM H. FAWCETT HIGH MAN AT TRAPS

Minneapolis, Oct. 2.—William H. Fawcett won high honors in the weekly shoot at the Fort Snelling traps when he led the field in both the regular and Amesbury trophy events. The Robbinsdale shooter broke 47 targets out of a possible 50 in the regular event and 23 out of 25 in the special trophy shoot.

E. Fitchett and Boomer won the two doubles events. Roger Fawcett, son of William H. gave his father a stiff battle in the regular event breaking 43 targets.

Hornsby's Indifference Caused Trouble—Rickey

St. Louis, Oct. 2.—Use of bad language and his persistence in fighting discipline, caused the trouble with Rogers Hornsby, according to a formal statement issued by Branch Rickey, manager of the Cards. Rickey said he would not have shown resentment "without an unusual cause."

CLIFTON A. ALLBRIGHT NEW PROBATE JUDGE

St. Paul, Oct. 2.—Clifton A. Allbright, Brainerd, was named today as probate judge of Crow Wing county to succeed the late Judge J. T. Sanborn, who died last Wednesday.

Judge Clifton A. Allbright

This is the third judgeship to be filled by appointment by Governor Preus within the last few days.

LAKE CITY MAN ELECTROCUTED

TWO KNOCKED UNCONSCIOUS
WHILE SURVEYING FOR STATE
HIGHWAY DEPARTMENT

(By United Press)
Avon, Minn., Oct. 2.—Fred L. Mills, 22, Lake City, was electrocuted early today one mile west of here. E. S. Davies, St. Paul, and Arthur L. Berg Grand Marais, were knocked unconscious at the time, but are expected to recover.

The three men were employed by the state highway department and were out on a surveying party making soundings of the proposed route for the state trunk highway from St. Joseph to Sauk Centre. The sounding rod they were using came in contact with a high voltage power wire 20 feet overhead. Mills was killed instantly.

I. W. W. SEEK RELEASE OF WAR PRISONERS, REPORT

Fargo, N. D., Oct. 2.—The I. W. W. are "educating" the membership for a general strike to secure release of so-called war prisoners police said they learned from Frank Keller, alleged organizer in jail here.

Keller is held in lieu of \$500 bond for district court on a charge of violating liquor laws. He carried a large supply of "strike tags" bearing no date.

Orizaba, Mexico, Oct. 2.—The day

after the new workmen's compensation law became effective in Orizaba—it provides full pay while ill—500 employees reported on the sick list. The day before only six were ill.

FIRPO APPLIES FOR U. S. CITIZENSHIP; GIVES AGE AS 28

New York, Oct. 2.—Luis Angel Firpo, heavyweight boxer, filed an application for United States citizenship in the naturalization bureau. In making out the form, Firpo disclosed that he has a wife, an Argentine, living in his native country.

Firpo gave his age as 28, not 26, as has been generally understood. He said he was six feet, 2 inches tall. Under the law Firpo does not have to remain in the United States continuously during the five years before he gets his final citizenship papers. He can absent himself six months of each year.

LONG LINES OF VOTERS CROWD POLLING BOOTHS

GOVERNOR WALTON ISSUES
STATEMENT ADDRESSED TO
VOTERS OF STATE

CONDEMNED THE ELECTION,
CALLED ON PEOPLE TO PRE-
SERVE PEACE AND ORDER

(By United Press)
Oklahoma City, Oct. 2.—Oklahoma laid its six-shooter on the table today and called for the ballot.

Polling places opened at 7 a. m. ready for voters to cast their ballot in the special election banned by Governor J. C. Walton.

Armed and deputized citizens actually slept on the ballot boxes in many cases to assure security of election supplies.

Long lines of voters waited before polling places at the time of opening in Oklahoma City.

Reports from throughout the state were that the balloting started in orderly manner in nearly all counties. In only a few counties, where Governor Walton's political supporters are in charge of election machinery, the polling places failed to open.

Governor Walton, who opposes the election because it carries an initiative law for vote of the people that the legislature may meet for the purpose of impeaching the governor without being called by the executive, continued efforts throughout the night to prevent success of the ballot.

Gov. Walton's Argument
He issued a statement addressing the people of Oklahoma, condemning the "pretended election" advertised to take place tomorrow, calling on the people to "preserve peace and good order."

He issued a call for an election on December 6 at which the initiative measure allowing the legislature to convene itself would be submitted to the people.

"If the people of Oklahoma want to enact laws so that the Ku Klux Klan legislators can meet to impeach me, thereby removing all restraint on lawlessness of the Klan, I don't want to be governor."

Will Not Use Military Force
The governor said he would not use the military forces to prevent the election. He said he mobilized the 22,000 state police, 75,000 minutemen and the national guard of late state to suppress rioting and lawlessness which might arise in connection with the balloting.

Martial law restrictions in many parts of the state were slightly relaxed for the election. The governor said military rule would be clamped down again after the voting.

Hundred of citizens went to the polls to see that there would be no interference with the balloting by the governor's forces.

22,000 Special Police

The governor's 22,000 special police were pushed into the background and scattered throughout the state. They made a puny force compared with the great army of special deputies ready to see that the election went on. Two days ago Walton had announced that the deputies would keep the polls padlocked and arrest defiant election officials.

From the executive mansion it was announced that the governor would ignore the results of today's balloting.

"The pretended election is illegal, and I will refuse to accept its results," the governor said.

"I am willing to allow the issue to go before the people in a fair and legal election where opportunity is had, as required by law, to present the issue to the voters."

Oklahoma City, Okla., Oct. 2.—A deputy sheriff was accidentally shot

OCTOBER FISHING RESULTS IN GETTING AN 18-POUND PIKE

That October is a good month for fishing in the Brainerd Lake Region was demonstrated by Mrs. E. W. Kaley and Mrs. Minnie De Shon. At Hubert Mrs. Kaley landed an 18-pound pike measuring 42 inches in length and 18 inches in circumference.

Mrs. DeShon caught an 8-pound pike which put up quite a fight before it was landed.

FREDDIE THOMPSON, "MAN GIRL" IS ON TRIAL TODAY

(By United Press)
Chicago, Oct. 2.—Smiling and apparently unconcerned, "Freddie" Thompson, "man girl," today watched the work of selecting a jury to try him on a charge of killing Richard Tesmer during a holdup here several months ago.

Wearing silk trousers, a sheer flimsy blouse, hair done up in woman's puffs, and face covered with a heavy beard, the accused smiled at each prospective juror.

Four jurors were chosen yesterday.

\$1,500,000 Spent in Year on Phone Lines

St. Paul, Oct. 2.—More than \$1,500,000 is being spent this year in the Minnesota territory of the Northwestern Bell Telephone company for additions to its lines and equipment, Frank Bracelin, state division manager of the company, said.

"This is being done in order to keep pace with the demands of the public for all classes of service," Mr. Bracelin said.

"New York has 1,130,000 telephones at the present time, but the demand for more is growing so fast that the company is to spend \$50,000,000 a year for the next five years to take care of the situation. There will be 2,000,000 telephones in use there by 1930.

"Similar growth prevails throughout the Bell system which is spending nearly \$750,000 a day in order to supply the demand."

by another special deputy in the county courthouse here shortly after the polls opened today.

The shooting occurred when the deputy dropped his gun, the bullet entering the guard's shoulder. The wounded man was rushed to the hospital.

He was identified as Frank Stevens, 27. Physicians said he was not seriously hurt.

QUIET ELECTION REPORTED AT TULSA

Tulsa, Okla., Oct. 2.—The visible government of Tulsa, battleground in Governor J. C. Walton's war on the Ku Klux Klan, expressed itself at the ballot box today. The polls opened promptly with deputy sheriffs on duty throughout the city. There was no opposition in evidence from Governor J. C. Walton's special police, and a quiet election day was in prospect. Deputies were armed with an injunction preventing the governor's army from interfering with the ballot.

VOTING QUIETLY IN WHOLE STATE

Oklahoma City, Okla., Oct. 2.—Voting in Oklahoma's special election held in defiance of Governor J. C. Walton proceeded quietly in all parts of the state this morning.

Oklahoma county, strongly against Walton in the last election, showed signs of polling the largest vote in its history. In counties where governor's special agents and military authorities probed lawlessness, placed by the executive at the door of the K. K. K., balloting was heavy. Other sections reported little interest, and an eighty per cent normal vote for the entire state was forecast.

GUN DUEL BETWEEN SUPPOSED TRAMPS AND POLICEMAN

ELNO JACOBS, SPECIAL AGENT
OF SOO LINE, WAS SHOT
AND KILLED

OLIVER JONES, TRANSIENT, SHOT
THROUGH JAW AT FOND DU
LAC, WIS.

(By United Press)
Fond du Lac, Wis., Oct. 2.—Elno Jacobs, special agent for the Soo Line, was shot and killed and Oliver Jones, transient, shot through the jaw in a gun duel between two supposed tramps and police officers at the Soo Line depot here today.

Jones will face a charge of assault with intent to kill when released here, and his brother Arvills held at the police station here on a charge of murder.

The Jones brothers, it is said, live at Green Ridge, Mo. In a signed statement to police concerning their part in the shooting they refused to disclose any other information about themselves.

Jacobs saw the two men on a southbound freight in the yard early today and endeavored to drive them from the train. It is said they threatened him with revolvers and remained aboard. Jacobs got off the train and enlisted the aid of John Cotter and Louis Huhn in the hunt for the men.

Cotter and Huhn went down one side of the train and Jacobs on the other. The slain officer located the two in an empty gondola car. The two rushed the officer and grabbed his revolver. Arvil is alleged to have fired the shots which entered Jacobs' head and heart, causing his death. The other officers appeared on the scene and captured the men after Oliver Jones had been shot.

The Season Ends

The open season for grouse and prairie chicken is from September 16th to October first. After October first game wardens will be looking for hunters who do not respect the law. Hunters killing game out of season are liable for the loss of all equipment used in killing the game, including guns and automobiles and are liable to a heavy fine for each offense. October first ended the lawful killing of grouse and chicken.

MARKET REPORT

(By United Press)
South St. Paul Livestock
South St. Paul, Oct. 2.—Estimated receipts at the union stockyards today: Cattle, 3,300; calves, 2,000; hogs, 14,800; sheep, 2,000; cars, 330.

Fargo, N. D., Oct. 2.—The I. W. W. are "educating" the membership for a general strike to secure release of so-called war prisoners police said they learned from Frank Keller, alleged organizer in jail here.

Keller is held in lieu of \$500 bond for district court on a charge of violating liquor laws. He carried a large supply of "strike tags" bearing no date.

Orizaba, Mexico, Oct. 2.—The day after the new workmen's compensation law became effective in Orizaba—it provides full pay while ill—500 employees reported on the sick list. The day before only six were ill.

FIRPO APPLIES FOR U. S. CITIZENSHIP; GIVES AGE AS 28

New York, Oct. 2.—Luis Angel Firpo, heavyweight boxer, filed an application for United States citizenship in the naturalization bureau. In making out the form, Firpo disclosed that he has a wife, an Argentine, living in his native country.

Firpo gave his age as 28, not 26, as has been generally understood. He said he was six feet, 2 inches tall. Under the law Firpo does not have to remain in the United States continuously during the five years before he gets his final citizenship papers. He can absent himself six months of each year.

LONG LINES OF VOTERS CROWD POLLING BOOTHS

GOVERNOR WALTON ISSUES
STATEMENT ADDRESSED TO
VOTERS OF STATE

CONDEMNED THE ELECTION,
CALLED ON PEOPLE TO PRE-
SERVE PEACE AND ORDER

(By United Press)
Oklahoma City, Oct. 2.—Oklahoma laid its six-shooter on the table today and called for the ballot.

Polling places opened at 7 a. m. ready for voters to cast their ballot in the special election banned by Governor J. C. Walton.

Armed and deputized citizens actually slept on the ballot boxes in many cases to assure security of election supplies.

Long lines of voters waited before polling places at the time of opening in Oklahoma City.

Reports from throughout the state were that the balloting started in orderly manner in nearly all counties. In only a few counties, where Governor Walton's political supporters are in charge of election machinery, the polling places failed to open.

Governor Walton, who opposes the election because it carries an initiative law for vote of the people that the legislature may meet for the purpose of impeaching the governor without being called by the executive, continued efforts throughout the night to prevent success of the ballot.

Gov. Walton's Argument
He issued a statement addressing the people of Oklahoma, condemning the "pretended election" advertised to take place tomorrow, calling on the people to "preserve peace and good order."

He issued a call for an election on December 6 at which the initiative measure allowing the legislature to convene itself would be submitted to the people.

"If the people of Oklahoma want to enact laws so that the Ku Klux Klan legislators can meet to impeach me, thereby removing all restraint on lawlessness of the Klan, I don't want to be governor."

Will Not Use Military Force
The governor said he would not use the military forces to prevent the election. He said he mobilized the 22,000 state police, 75,000 minutemen and the national guard of his state to suppress rioting and lawlessness which might arise in connection with the balloting.

Martial law restrictions in many parts of the state were slightly relaxed for the election. The governor said military rule would be clamped down again after the voting.

Hundred of citizens went to the polls to see that there would be no interference with the balloting by the governor's forces.

22,000 Special Police
The governor's 22,000 special police were pushed into the background and scattered throughout the state. They made a puny force compared with the great army of special deputies ready to see that the election went on. Two days ago Walton had announced that the deputies would keep the polls padlocked and arrest defiant election officials.

From the executive mansion it was announced that the governor would ignore the results of today's balloting.

"The pretended election is illegal, and I will refuse to accept its results," the governor said.

"I am willing to allow the issue to go before the people in a fair and legal election where opportunity is had, as required by law, to present the issue to the voters."

Oklahoma City, Okla., Oct. 2.—A deputy sheriff was accidentally shot

OCTOBER FISHING RESULTS IN GETTING AN 18-POUND PIKE

That October is a good month for fishing in the Brainerd Lake Region was demonstrated by Mrs. E. W. Kaley and Mrs. Minnie DeShon. At Hubert Mrs. Kaley landed an 18-pound pike measuring 42 inches in length and 18 inches in circumference.

Mrs. DeShon caught an 8-pound pike which put up quite a fight before it was landed.

FREDDIE THOMPSON, "MAN GIRL" IS ON TRIAL TODAY

(By United Press)
Chicago, Oct. 2.—Smiling and apparently unconcerned, "Freddie" Thompson, "man girl," today watched the work of selecting a jury to try him on a charge of killing Richard Tesmer during a holdup here several months ago.

Wearing silk trousers, a sheer flimsy blouse, hair done up in woman's puffs, and face covered with a heavy beard, the accused smiled at each prospective juror.

Four jurors were chosen yesterday.

\$1,500,000 Spent in Year on Phone Lines

St. Paul, Oct. 2.—More than \$1,500,000 is being spent this year in the Minnesota territory of the Northwestern Bell Telephone company for additions to its lines and equipment, Frank Bracelin, state division manager of the company, said.

"This is being done in order to keep pace with the demands of the public for all classes of service," Mr. Bracelin said.

"New York has 1,120,000 telephones at the present time, but the demand for more is growing so fast that the company is to spend \$50,000,000 a year for the next five years to take care of the situation. There will be 2,000,000 telephones in use there by 1930."

"Similar growth prevails throughout the Bell system which is spending nearly \$750,000 a day in order to supply the demand."

by another special deputy in the county courthouse here shortly after the polls opened today.

The shooting occurred when the deputy dropped his gun, the bullet entering the guard's shoulder. The wounded man was rushed to the hospital.

He was identified as Frank Stevens, 27. Physicians said he was not seriously hurt.

QUIET ELECTION REPORTED AT TULSA

Tulsa, Okla., Oct. 2.—The visible government of Tulsa, battleground in Governor J. C. Walton's war on the Ku Klux Klan, expressed itself at the ballot box today. The polls opened promptly with deputy sheriffs on duty throughout the city. There was no opposition in evidence from Governor J. C. Walton's special police, and a quiet election day was in prospect. Deputies were armed with an injunction preventing the governor's army from interfering with the ballot.

VOTING QUIETLY IN WHOLE STATE

Oklahoma City, Okla., Oct. 2.—Voting in Oklahoma's special election held in defiance of Governor J. C. Walton proceeded quietly in all parts of the state this morning.

Oklahoma county, strongly against Walton in the last election, showed signs of polling the largest vote in its history. In counties where governor's special agents and military authorities probed lawlessness, placed by the executive at the door of the K. K. K., balloting was heavy. Other sections reported little interest, and an eighty per cent normal vote for the entire state was forecast.

GUN DUEL BETWEEN SUPPOSED TRAMPS AND POLICEMAN

ELNO JACOBS, SPECIAL AGENT
OF SOO LINE, WAS SHOT
AND KILLED

OLIVER JONES, TRANSIENT, SHOT
THROUGH JAW AT FOND DU
LAC, WIS.

(By United Press)
Fond du Lac, Wis., Oct. 2.—Elno Jacobs, special agent for the Soo Line, was shot and killed and Oliver Jones, transient, shot through the jaw in a gun duel between two supposed tramps and police officers at the Soo Line depot here today.

Jones will face a charge of assault with intent to kill when released here, and his brother Arvill held at the police station here on a charge of murder.

The Jones brothers, it is said, live at Green Ridge, Mo. In a signed statement to police concerning their part in the shooting they refused to disclose any other information about themselves.

Jacobs saw the two men on a southbound freight in the yard early today and endeavored to drive them from the train. It is said they threatened him with revolvers and remained aboard. Jacobs got off the train and enlisted the aid of John Cotter and Louis Huhn in the hunt for the men.

Cotter and Huhn went down one side of the train and Jacobs on the other. The slain officer located the two in an empty gondola car. The two rushed the officer and grabbed his revolver. Arvill is alleged to have fired the shots which entered Jacobs' head and heart, causing his death. The other officers appeared on the scene and captured the men after Oliver Jones had been shot.

The Season Ends

The open season for grouse and prairie chicken is from September 15th to October first. After October first game warden will be looking for hunters who do not respect the law. Hunters killing game out of season are liable for the loss of all equipment used in killing the game, including guns and automobiles and are liable to a heavy fine for each offense. October first ended the lawful killing of grouse and chicken.

MARKET REPORT

(By United Press)
South St. Paul Livestock
South St. Paul, Oct. 2.—Estimated receipts at the union stockyards today: Cattle, 2,300; calves, 2,000; hogs, 14,500; sheep, 2,000; cars, 230.

At the meeting of Evergreen Cemetery association, held in the Y. M. C. A. rooms last night, G. W. Chadbourne, vice president, was elected secretary to succeed the late Judge J. T. Sanborn. Members of the association present were President E. P. Shipp, George Bertram, Dan Doran, Wm. Grossman, George Blislar, Joseph Klebber, J. W. Koop, Mons Mahlum and Mr. Chadbourne. A committee to draft resolutions of condolence on the demise of Judge Sanborn was named, being composed of Mons Mahlum, E. P. Shipp and Mr. Chadbourne.

IN MUNICIPAL COURT

Frank Ascher Given a Preliminary Hearing on 3 Charges of Selling Liquor

In municipal court Monday afternoon, Frank Ascher was given a preliminary hearing on three charges of selling intoxicating liquor. On each charge he was bound over to the district court, bonds in each case being set at \$500.

Olof Fahlstrom, charged with manufacturing liquor demanded an examination which was set for October 10th, bonds being set at \$500. Swanson and Swanson are Fahlstrom's attorneys.

This case is the outgrowth of a raid made on Saturday by the sheriff's office. Three hundred gallons of mash in six barrels were found, two stills and three oil stoves and fifteen gallons of liquor.

Roy Bryant, of Jenkins, charged with intoxication, pleaded guilty to the charge and was fined \$50. Bryant with two companions are alleged to have driven about the village of Jenkins on Sunday afternoon in a state of intoxication, defying the constable who tried to stop them.

Raymond McCormick plead guilty to speeding and was fined \$5. A. F. Beaver plead guilty to a similar charge and was fined \$10.

CHAMBERLAIN'S COUGH REMEDY Every user is a friend

Chiropractic for Bronchitis

All affections of the respiratory apparatus are very prevalent during this season. Bronchitis is one of the most common of these affections and relief can, in the majority of cases, be afforded by Chiropractic Vertebral Adjustments. The chiropractor adjusts vertebrae of the spine so that all pressure is removed from the spinal nerves, thus permitting free and unhindered transmission of the vital force from the brain to the bronchial tubes, resulting in normal expression and normal function.

Consultation, spinal analysis and booklets free. House and country calls made, day or night.

At the meeting of Evergreen Cemetery association, held in the Y. M. C. A. rooms last night, G. W. Chadbourne, vice president, was elected secretary to succeed the late Judge J. T. Sanborn. Members of the association present were President E. P. Shipp, George Bertram, Dan Doran, Wm. Grossman, George Bislar, Joseph Klebber, J. W. Koop, Mons Mahlum and Mr. Chadbourne. A committee to draft resolutions of condolence on the demise of Judge Sanborn was named, being composed of Mons Mahlum, E. P. Shipp and Mr. Chadbourne.

IN MUNICIPAL COURT

Frank Ascher Given a Preliminary Hearing on 3 Charges of Selling Liquor

In municipal court Monday afternoon, Frank Ascher was given a preliminary hearing on three charges of selling intoxicating liquor. On each charge he was bound over to the district court, bonds in each case being set at \$500.

Olof Fahlstrom, charged with manufacturing liquor demanded an examination which was set for October 10th, bonds being set at \$500. Swanson and Swanson are Fahlstrom's attorneys.

This case is the outgrowth of a raid made on Saturday by the sheriff's office. Three hundred gallons of mash in six barrels were found, two stills and three oil stoves and fifteen gallons of liquor.

Roy Bryant, of Jenkins, charged with intoxication, plead guilty to the charge and was fined \$50. Bryant with two companions are alleged to have driven about the village of Jenkins on Sunday afternoon in a state of intoxication, defying the constable who tried to stop them.

Raymond McCormick plead guilty to speeding and was fined \$5. A. F. Beaver plead guilty to a similar charge and was fined \$10.

Presbyterian Aid

The ladies aid of the Presbyterian church will meet on Wednesday afternoon at the home of Mrs. David Frayer, 710 South Broadway. Mesdames Jenkins, Morrison, Malmstrom and Frayer will entertain. A large attendance is desired.

Peoples Congregational Aid

The ladies aid of the Peoples Congregational church will meet Wednesday afternoon at the church parlors and will be entertained by Mrs. Henry Stein Jr. and Mrs. Ida Warren.

Norman-Doty

Ernest E. A. Norman and Miss Bernice R. Doty, both of Crow Wing county, were united in marriage by Judge J. H. Warner on Saturday. The witnesses were Mr. and Mrs. Henry Pfaffendorf.

Leland-Carter

Herbert Leland, of Faribault county and Miss Eva Carter of Crow Wing county were married on Saturday by Judge J. H. Warner. George H. Gardner and Miss Esther Fogelstrom acted as witnesses to the pleasing ceremony.

1st Congregational Aid

The ladies aid of the First Congregational church will meet Wednesday afternoon in the church parlors, Mrs. Losey, Mrs. Stickney and Miss Robinson entertaining. Will the members come prepared to pay their annual dues?

Yeomen Notice

There will be open installation at our regular meeting Wednesday Oct. 3rd, 7:30 p. m. W. E. Hatley State Manager will be in charge. Refreshments and dancing. 10212

BRONCHITIS

Leaves a bad cough. So does "flu" and la grippe. But these lingering coughs yield easily to the healing and curative qualities of

CHAMBERLAIN'S COUGH REMEDY
Every user is a friend

Chiropractic for Bronchitis

All affections of the respiratory apparatus are very prevalent during this season. Bronchitis is one of the most common of these affections and relief can, in the majority of cases, be afforded by Chiropractic Vertebral Adjustments. The chiropractor adjusts vertebrae of the spine so that all pressure is removed from the spinal nerves, thus permitting free and unhindered transmission of the vital force from the brain to the bronchial tubes, resulting in normal expression and normal function.

Consultation, spinal analysis and booklets free. House and country calls made, day or night.

GAVE LECTURE ON CHRISTIAN SCIENCE

John C. Lathrop, C. S. B., Member of
the Board of Lectureship of The
Mother Church

THE FIRST CHURCH OF CHRIST

Scientist of Boston, Addressed Audi-
ence at Iron Exchange Hall on
Monday Evening

A lecture on Christian Science entitled "Christian Science: The Religion of Right Resistance," was given by John C. Lathrop, C. S. B., Member of the Board of Lectureship of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass., at Iron Exchange hall on Monday evening.

Mr. Lathrop said in part:

General Foch of France said, "A battle won is a battle in which one will not own one's self beaten." Ruskin wrote, "When the heart sinks the boat sinks." Persistence in right will move mountains. Right control, resistance, and persistence will master all things. This pathway of life is the pathway of true common sense, and true common sense is the sense common to God and His man. It is the sense that will become more and more common as men grow more and more in spiritual understanding; it is the sense that makes a man the master of himself and of all circumstances.

I ask you: Is it common sense to obey the beliefs of fear, superstition, and ignorance, which result in disease, discord, and death? Is it common sense to believe that the earth is flat or that the sun revolves around it just because the sense of sight so testifies? Would it be common sense to believe that the clock in your room is not ticking plainly because your ears do not always hear it? Or would it be common sense to say you are not wearing clothes because you do not always feel them on you? Is it common sense to walk by sight and not by faith as Paul admonished, or is it common sense to give up solving any big problem just because the material senses do not comprehend it? Then neither is it common sense to accept the material testimony about disease and pain just because the lying material senses say there is life and sensation in matter. Can mindless matter feel pain, or is it thought that feels it? If it is not the thought, then why do doctors stupefy the thought with an opiate to lessen the pain?

The endeavor of the human mind to govern the body has indeed been pathetic. Beliefs, theories, and rules have been as multitudinous, conflicting, and tempestuous as the waves of the sea. A cure for disease which seems effective today is abandoned tomorrow. Quackery is a thing universal, and no imposition is too great for the credulity of man. So the whole gamut of human faith in matter is run and rerun and strained to the breaking, until finally in its extremity, like the sinking Peter, human faith turns to the spiritual, to Christ, Truth, and cries, "Lord, save us."

The question of healing disease or sin is, as Mrs. Eddy sums it up, the question of the correct government of the body. It is the great question of control or right resistance. Shall the material body control man, or shall man govern and control the body and all its beliefs? This virtually means: Shall man control matter, or shall inert and mindless matter control man? You see a snake in a dream; but when you wake up and see only a table, the snake ceases to alarm you. It is just so with the beliefs about matter and the material body. We should wake to see the real man, and we should awake now.

Christian Science is becoming universally accepted, and is doing its great healing and redemptive work because of its correct teaching about God and man. Christian Science awakens the thought to understand a God who is ever present, practical,

"DAKOTAN" WITH SPOKANE AUTO CO.

K. K. Rutherford believes the training at Dakota Business College, Fargo, N. D., will get a man a good position anywhere. He was in Spokane, Wash., only four days when engaged by the Finlay-Studebaker office. J. S. Johnson, manager of the Valley Hdw. Co., Sidney, Mont. (also a "Dakotan"), recently employed Geo. Brown, the day he finished his D. B. C. course.

D. B. C. pupils actually practice current business methods at school. You're soon "at home" with your work anywhere. "Follow the Successful." Write F. L. Watkins, Pres., 806 Front St., Fargo, N. D.

and provable, and to a man who is obedient to God's nature and government, a man who is like his creator—in other words, who reflects God. God and man are shown to be not corporeal, limited, and erring, but are proved to be what Christ Jesus showed them to be, spiritual, eternal, loving, vital, active, and to be so here and now. God is Spirit, All-in-all, the one Father-Mother Mind, the one and only creator or parent of man, who is God's spiritual idea, the perfect likeness or child of God.

You all know what self-consciousness is and what it does to you, if you haven't known what causes it. Christian Science discloses the cause of self-consciousness, and how it and its effects are wholly overcome. The effects of self-consciousness are legion. Probably all our fear and worry, weakness and pain, all diseases, all beliefs of lack—lack of supply, lack of strength, of health, lack of happiness, of joy, lack of freedom, lack of love, all false pride, sensitiveness, envy, and jealousy, in short, all discord, disease, and sin are traceable to self-consciousness, or the wrong consciousness of one's self.

Gain the right consciousness of yourself as made in the likeness of Spirit, and this true sense will destroy the false sense and all sick and sinning beliefs. This is natural and normal self-control. It is freedom, ease, and harmony. Thus Christian Science shows that true self-control gives man the power of resistance and of dominion which is his natural birthright as God's child, the power to resist and to destroy disease and sin of whatever nature.

Having shown that thoughts are things, and that matter is mindless, harmless, and unreal, Christian Science takes the next step and shows that there is a right thought resistance and a wrong thought resistance, a right control, and a thought control which is decidedly evil and harmful. It shows that resistance, to be corrective and healing, must have behind it the unlimited power of the divine Mind, and not have behind it the limited influence of the so-called material mind or human will. The human will, based on the belief that life, substance, and intelligence are in matter, is selfish, blind, aggressive, and is capable of

doing evil. Such thoughts are the very opposite of the unselfish and pure thoughts of Truth, Life and Love.

Christian Science shows that the sick and the sinner cannot be really healed by superficial methods, and therein it proves its great mission and vitality. It proves that faith in material methods merely lulls to sleep or covers over the underlying error. This error is always mental, and while it may be temporarily quieted, it is not destroyed until the false sense of life and pleasure in matter is overcome. Then the

THE BLOC DEMANDS A GRAB AT THE NATION'S PURSE

It is announced that the agricultural bloc in congress is to use its numerical strength to force the administration to do its bidding. When the Adamson law was passed it was claimed that the railroad workers held a stop watch over congress and demanded the passage of the bill before a certain hour was reached. The bill was passed and the resentment that was aroused in the country cannot have been forgotten. Compulsory legislation that is enacted under threat is not popular, and legislation that may be passed by a majority, representative of one particular group and without thought of the interests of other groups, will not be popular in the United States.

The agricultural bloc will make a mistake if it votes a subsidy to the wheat farmers out of the money at the disposal of the treasury. Such a vote would be unfortunate at this time when the budget system is working out fairly well, for it would hinder this attempt to organize the expenditures of the government on an economical basis and would substitute the older system in which those who had strength grabbed what they could out of the coffers of the United States.

The ship subsidy measure presented to the last congress was unpopular in both congress and the country and, despite the plight of the wheat growers, a subsidy voted out of the treasury, although the budget has assigned the money to other purposes, would not be popular in the United States. This attitude looks too much like compulsion. The administration must do something for the wheat growers for the administration's own interests demand this. The administration's only hope lies in finding a means of helping this group and it is to be expected that with this knowledge the administration will use its best endeavors to this end. But if it fails to satisfy the agricultural bloc that bloc will be gravely mistaken if it uses its numerical strength to enact legislation that destroys the new budget plan in government expenditures and substitutes the older system of financing the various interests of the country. This would be subversive of the best interests of the United States and would bring upon the bloc the disapproval of that larger proportion of the population of the country which is not engaged in wheat growing.

CROW WING COUNTY'S NEW INHABITANTS

It is news to many in the county of Crow Wing that about sixty disabled veterans are located on farms in the county. As the news spreads the people of the county and of Brainerd will see what this means to the development of the agricultural interests of Crow Wing county and to the business of the county seat.

For the education of these men the United States Veterans' bureau is spending \$17,000 per annum through the school board of Brainerd, and as each man is receiving approximately \$100 per month from the government of the United States, an estimate may be made of the financial gain to the county that accrues through the location of these men within its borders.

More has been done for the disabled men in some sections of the state than has been attempted here. In other places the people have realized the value of these men as agriculturists whose training and allowance is likely to result in making them efficient workers and as contributors to the prosperity of the rural districts and the adjacent business centers.

These men gave themselves for service in which they were disabled and the American people owe them the best kind of treatment. They should be given every possible consideration and it is to be expected that no American citizens will seek financial gain at their expense, and yet, if reports are true, there are those who have sought gain by selling land to the veterans at too high a price. Because these men are new-comers, who in some cases are lonely and whose physical condition may tend to make them more sensitive than their more robust brothers, the people of the communities in which they are located would do well if they visited them and became acquainted. People of Brainerd can help these men to feel at home by dropping in to see them when opportunity makes this possible.

RAISING WATER LEVELS

The announcement that the new dam across Rum river is almost completed will be received with satisfaction by people in this section of the state of Minnesota. The water levels are not any too high and there is a danger that unless efforts are made to hold the water the lake shores in Northern Minnesota will be ruined. Anything, therefore, that aims at preventing the outflow of water, that is needed to hold the water in the beds of the lakes, is of advantage not only to property owners whose holdings on the lakes are robbed of value through the receding of the water line, but also to the dwellers in Northern Minnesota who enjoy the drives along the shores of the lakes and to the tourists who come into this part of the state in the summer time.

Care must be taken to preserve the natural advantages of this splendid country. It is possible that through the negligence of the people the values may be depleted and the satisfaction of living near the lakes more or less destroyed, because the intelligence of the people is not directed to the end of conserving these natural values. It is well that Brainerd has become a center of interest in the protection of the wild life of Northern Minnesota and the conservation of the values of the beautiful lakes that lie so near at hand.

Those who not only think of the necessity of conserving these values but who go ahead in planning and building for the purpose of preventing their loss are to be congratulated, for it is quite possible to see the passing of values without attempting to prevent their passing. There are yet other opportunities for our alert citizenship in this district where our joys are bound up with the natural beauty of the lakes, and efforts must be made to conserve the beauty of our lake shores by seeing to it that influence and pressure is brought to bear where necessary for the purpose of retaining a high water level in the lakes.

LLOYD GEORGE had a great reception. It was a farewell reception and he couldn't be sure whether the folks were pleased or sorry over his leaving for America. With his usual ability to capitalize a situation he entrusted England to the care of those who saw him off.

RESOLUTION

Whereas This Council did on the 20th day of August, 1923, determine to issue and sell General Sewer Bonds of the City of Brainerd in the aggregate amount of \$18,700.00, and did on the 17th day of September, 1923, sell said bonds in the manner provided by law.

Now, Therefore, Be It Resolved by the City Council of the City of Brainerd, that said bonds dated September 1st, 1923, and shall be in substantially the following form, with the necessary variations as to number, denomination and maturities:

Number: _____
United States of America
State of Minnesota
County of Crow Wing
City of Brainerd.

GENERAL SEWER BOND
KNOW ALL MEN BY THESE PRESENTS That the City of Brainerd, Crow Wing County, Minnesota, for value received, acknowledge itself indebted, and promises to pay to bearer in lawful money of the United States, on _____, 19____, at the Office of the City Clerk in the City of Brainerd, Minnesota, the sum of _____ Dollars (\$ _____) and interest on said sum from date hereof until paid at the rate of five (5) per cent per annum, payable semi-annually on September 1st, and March 1st of each year, at the same place, upon presentation and surrender of the annexed interest coupons as they severally become due, for which payment, well and truly to be made, the full faith, credit, revenue and property of said City are hereby irrevocably pledged.

This bond is one of a series of bonds amounting in the aggregate to the sum of \$18,700.00, of like date and tenor, but differing as to maturities and is issued pursuant to the provisions of the Statutes of the State of Minnesota, thereto enabling, and the Charter of said City, for the purpose of constructing necessary extensions, enlargements and improvements of the General Sewer within said City and is authorized by a majority of the electors of said City voting at a special election duly called and held for that purpose.

It is hereby certified that all acts, conditions and things required or prescribed to be done precedent to and in the issuance of this bond have been done, happened and been performed as required by law, and that the total amount of this issue of bonds, together with all other indebtedness of said City, does not exceed any constitutional or statutory limitation.

In Testimony Whereof, The City of Brainerd, Minnesota, by its Council, has caused this bond to be signed by its Mayor, and Countersigned by the City Clerk and Treasurer, with the corporate seal of said City attached, as of this 1st day of September, 1923.

Mayor
City of Brainerd, Minnesota
Countersigned:

City Clerk
Treasurer

(Seal)
That there be coupons attached to said bonds, each evidencing the interest due thereon for a six months' period.

That said coupons shall be in substantially the following form:

Number: _____
The City of Brainerd
Crow Wing County, Minnesota,
will pay to bearer on the _____ day of _____, 19____, the sum of _____ Dollars (\$ _____) at the Office of the City Clerk in the City of Brainerd, Minnesota, being the interest due on that City's General Sewer Bond, dated September 1st, 1923, No. _____.

Countersigned: Mayor
City Clerk

City Treasurer

Resolved Further that on the City's behalf, the Mayor be, and he hereby is authorized and directed to sign the said bonds in substantially said form, and the Clerk and Treasurer to countersign the same, and that the seal of the City be attached thereto, and that the printed, lithographed or engraved facsimile of the Mayor's, Clerk's and Treasurer's signatures be attached to the coupons of said bonds, and that said bonds when so prepared and executed, shall be placed in the custody of the Treasurer of said City.

Resolved Further that on such execution and delivery to the Treasurer, he be and hereby is authorized and directed to deliver said bonds to the purchaser whose bid has heretofore been accepted thereon on paying into the Treasury of said City the amount of its bid which is not less than par.

Resolved Further that the full faith, credit and resources of said City of Brainerd, Minnesota, and of this City Council, as such, be and the same are hereby irrevocably pledged for the punctual payment of the principal and interest of said bonds at maturity.

Adopted 1st day of October, 1923.

H. E. MICHAEL,
President of the Council

Approved 1st day of October, 1923.
C. O. O'BRIEN,
Mayor

Attest:
E. T. FLEENER,
City Clerk (Seal)

ORDINANCE NO. 312

An Ordinance Regulating the Time of Parking of Motor Vehicles in the City of Brainerd.

The City Council of the City of Brainerd do ordain:

Section 1. No person except properly licensed physicians or surgeons shall leave any motor or other vehicle standing unattended for more than sixty (60) minutes continuously between the hours of twelve (12) o'clock midnight and eight (8) o'clock a. m. on any of the streets in the City of Brainerd, hereinafter named: Laurel Street between Fifth Street and Broadway, Front Street between Fifth Street and Broadway, Sixth Street between Front Street and Maple Street, Seventh Street between Front Street and Maple Street, Eighth Street between Front Street and Maple Street, and Maple Street between Front Street and Broadway.

The vehicles of such physicians or surgeons shall bear upon the front thereof an emblem recommended by the American Medical Association and approved by the Chief of Police.

Section 2. Any person who shall violate any of the provisions of this ordinance, shall be deemed guilty of a misdemeanor and upon conviction thereof, shall be punished by a fine not exceeding One Hundred Dollars (\$100.00), or by imprisonment in the City Jail for not exceeding ninety (90) days.

Section 3. This ordinance shall take effect and be in force from and after the date of its publication, 1923.

Passed 17th day of September, 1923.
H. E. MICHAEL,
President of the City Council

Approved 17th day of September, 1923.

TUESDAY, OCTOBER 2, 1923

THE BLOC DEMANDS A GRAB AT THE NATION'S PURSE

It is announced that the agricultural bloc in congress is to use its numerical strength to force the administration to do its bidding. When the Adamson law was passed it was claimed that the railroad workers held a stop watch over congress and demanded the passage of the bill before a certain hour was reached. The bill was passed and the resentment that was aroused in the country cannot have been forgotten. Compulsory legislation that is enacted under threat is not popular, and legislation that may be passed by a majority, representative of one particular group and without thought of the interests of other groups, will not be popular in the United States.

The agricultural bloc will make a mistake if it votes a subsidy to the wheat farmers out of the money at the disposal of the treasury. Such a vote would be unfortunate at this time when the budget system is working out fairly well, for it would hinder this attempt to organize the expenditures of the government on an economical basis and would substitute the older system in which those who had strength grabbed what they could out of the coffers of the United States.

The ship subsidy measure presented to the last congress was unpopular in both congress and the country and, despite the plight of the wheat growers, a subsidy voted out of the treasury, although the budget has assigned the money to other purposes, would not be popular in the United States. This attitude looks too much like compulsion. The administration must do something for the wheat growers for the administration's own interests demand this. The administration's only hope lies in finding a means of helping this group and it is to be expected that with this knowledge the administration will use its best endeavors to this end. But if it fails to satisfy the agricultural bloc that bloc will be gravely mistaken if it uses its numerical strength to enact legislation that destroys the new budget plan in government expenditures and substitutes the older system of financing the various interests of the country. This would be subversive of the best interests of the United States and would bring upon the bloc the disapproval of that larger proportion of the population of the country which is not engaged in wheat growing.

CROW WING COUNTY'S NEW INHABITANTS

It is news to many in the county of Crow Wing that about sixty disabled veterans are located on farms in the county. As the news spreads the people of the county and of Brainerd will see what this means to the development of the agricultural interests of Crow Wing county and to the business of the county seat.

For the education of these men the United States Veterans' bureau is spending \$17,000 per annum through the school board of Brainerd, and as each man is receiving approximately \$100 per month from the government of the United States, an estimate may be made of the financial gain to the county that accrues through the location of these men within its borders.

More has been done for the disabled men in some sections of the state than has been attempted here. In other places the people have realized the value of these men as agriculturists whose training and allowance is likely to result in making them efficient workers and as contributors to the prosperity of the rural districts and the adjacent business centers.

These men gave themselves for service in which they were disabled and the American people owe them the best kind of treatment. They should be given every possible consideration and it is to be expected that no American citizens will seek financial gain at their expense, and yet, if reports are true, there are those who have sought gain by selling land to the veterans at too high a price. Because these men are new-comers, who in some cases are lonely and whose physical condition may tend to make them more sensitive than their more robust brothers, the people of the communities in which they are located would do well if they visited them and became acquainted. People of Brainerd can help these men to feel at home by dropping in to see them when opportunity makes this possible.

RAISING WATER LEVELS

The announcement that the new dam across Rum river is almost completed will be received with satisfaction by people in this section of the state of Minnesota. The water levels are not any too high and there is a danger that unless efforts are made to hold the water the lake shores in Northern Minnesota will be ruined. Anything, therefore, that aims at preventing the outflow of water, that is needed to hold the water in the beds of the lakes, is of advantage not only to property owners whose holdings on the lakes are robbed of value through the receding of the water line, but also to the dwellers in Northern Minnesota who enjoy the drives along the shores of the lakes and to the tourists who come into this part of the state in the summer time.

Care must be taken to preserve the natural advantages of this splendid country. It is possible that through the negligence of the people the values may be depleted and the satisfaction of living near the lakes more or less destroyed, because the intelligence of the people is not directed to the end of conserving these natural values. It is well that Brainerd has become a center of interest in the protection of the wild life of Northern Minnesota and the conservation of the values of the beautiful lakes that lie so near at hand.

Those who not only think of the necessity of conserving these values but who go ahead in planning and building for the purpose of preventing their loss are to be congratulated, for it is quite possible to see the passing of values without attempting to prevent their passing. There are yet other opportunities for our alert citizenship in this district where our joys are bound up with the natural beauty of the lakes, and efforts must be made to conserve the beauty of our lake shores by seeing to it that influence and pressure is brought to bear where necessary for the purpose of retaining a high water level in the lakes.

LLOYD GEORGE had a great reception. It was a farewell reception and he couldn't be sure whether the folks were pleased or sorry over his leaving for America. With his usual ability to capitalize a situation he entrusted England to the care of those who saw him off.

RESOLUTION

Whereas This Council did on the 20th day of August, 1923, determine to issue and sell General Sewer Bonds of the City of Brainerd in the aggregate amount of \$15,000.00, and did on the 17th day of September, 1923, sell said bonds in the manner provided by law; Now, Therefore, Be It Resolved, by the City Council of the City of Brainerd, that said bonds be dated September 1st, 1923, and shall be in substantially the following form, the necessary variations as to number, denomination and maturities:—

Number _____
United States of America
State of Minnesota
County of Crow Wing,
City of Brainerd.
GENERAL SEWER BOND
KNOW ALL MEN BY THESE PRESENTS That the City of Brainerd, Crow Wing County, Minnesota, for value received, acknowledge itself indebted, and promises to pay to bearer in lawful money of the United States, on _____ 19____, at the office of the City Clerk, in the City of Brainerd, Minnesota, the sum of _____ Dollars (\$____), and interest on said sum from date hereof until paid at the rate of five (5) per cent per annum, payable semi-annually on September 1st and March 1st of each year, at the same place, upon presentation and surrender of the annexed interest coupons as they severally become due, for which payment, well and truly to be made, the full faith, credit, revenue and property of said City are hereby irrevocably pledged.
This bond is one of a series of bonds amounting in the aggregate to the sum of \$15,000.00, of like date and tenor, but differing as to maturity and is issued pursuant to the provisions of the Statutes of the State of Minnesota, thereto enabling, and the Charter of said City, for the purpose of constructing necessary extensions, enlargements and improvements of the General Sewer within said City and is authorized by a majority of the electors of said City voting at a special election duly called and held for that purpose.

It is hereby certified that all acts, conditions and things required or prescribed to be done precedent to and in the issuance of this bond, have been done, happened and been performed as required by law, and that the total amount of this issue of bonds, together with all other indebtedness of said City, does not exceed any constitutional or statutory limitation.
In Testimony Whereof, The City of Brainerd, Minnesota, by its Council, has caused this bond to be signed by its Mayor, and Countersigned by the City Clerk and Treasurer, with the corporate seal of said City attached, as of this 1st day of September, 1923.

CITY GETS \$10,000 GROSS EARNINGS

Accepted Under Certain Conditions of
Refunding Portion, It Called
For

SOUTH 5TH ST. IMPROVEMENTS

New Shop Fence Being Erected Along
South Line of the Railway
Property

It was reported at the regular meeting of the city council on Monday night, that the ten thousand dollars, which is Brainerd's share of the five per cent of the gross earnings tax, has been received from the state. This money is accepted with the understanding that a refund will be made by the city to the state, should any other cities apply for a share of the gross earnings returns. On motion, the money was accepted subject to this provision.

This is the return which was allowed by a bill passed at the last session of the Minnesota legislature, giving cities in the state a portion of the gross earnings tax as paid by railways, the share depending upon the amount of certain railway property in the city. The League of Minnesota Municipalities worked hard to have this bill passed, and deserves much credit for its passage.

South 5th St. Sidewalk Approaches

Joseph Hebert appeared before the council in regard to sidewalk approaches being installed on South Fifth street. On motion, these approaches were ordered in on streets running east and west across Fifth.

Certain citizens residing in South-east Brainerd in the vicinity of the railway shops appeared before the council in regard to a new shop fence being erected along the south line of the Northern Pacific property. The city engineer reported that this work had stopped pending a new survey of the shop property.

North Third Street Curbing

H. E. Kundert and Ashley McKinley appeared in regard to curbing and grading of North Third street between Holly and Bluff avenue. On motion the curb was ordered in, work to commence at once.

Alderman Holmstrom offered a resolution for the form of the \$18,700 bond issue and moved its adoption, seconded by Alderman G. A. Cain. All present voted aye and the resolution was declared adopted.

Marl on South 9th Street

The matter of applying marl to South Ninth street was again discussed at Monday night's meeting. At the last regular meeting this was brought up by Walter M. Murphy, and a great deal of interest was shown in the making of an experimental street, using marl as the base.

Mayor Con O'Brien requested the city engineer to make a statement of the probable cost of this work on South Ninth street, which statement could be shown the property owners affected thereby. He was advised that this cost would be about \$23 per fifty-foot lot, if the marl were disced and plowed in.

It was suggested that the sand and marl might be run through a mixer and then put on the street. T. H. Crosswell, who is much interested in the experiment, offered to donate one hundred dollars toward the work, if the mixing process is used. Mayor O'Brien at the last meeting offered to donate \$200 toward the work. This matter is to be taken up with the property owners and a complete report made at the next regular meeting.

Milk Licenses

The following milk licenses were presented and recommended for allowance by the city dairy inspector: W. T. Canniff, Fred Larson and the Farmers Co-operative Creamery Association. On motion duly carried, all of these licenses were granted.

The city clerk reported that the fourteen thousand dollar revolving fund bonds have been retired as instructed at the last regular meeting.

A communication from the Home Insurance Co., was read, requesting that the company be released on the bond of the city treasurer which was not renewed for the present term of this official. The matter was referred to the finance committee.

Monthly Reports Read

The regular monthly reports were received from the clerk of the municipal court, the dairy inspector, the chief of police and the city nurse. All were accepted and ordered filed. These reports will appear later in the Dispatch.

Captain Jack O'Connell made application for a license to operate a shooting gallery the first of September, but no action was taken on the matter at that time. The license was granted on Monday evening.

Standard Lumber Co. Requests
The Standard Lumber Company re-

quested permission to move certain buildings from its present location on East Laurel street to its new property at the corner of Maple and South Seventh streets, and also asked the right to install a scale at the new location, all of which was granted.

Brainerd Foundry Co.

The Brainerd Foundry Company requested that the Northern Pacific Railway be given permission to put in a siding across Quince street to the new foundry property, from the main line track to St. Paul, and on motion this request was granted.

The matter of the bill put in to the council by Tom Wood for reimbursement for approach walk put in three years ago was not allowed. The same action was taken on a similar request from George H. Brown for an approach built in 1917.

North Tenth Street

A petition was received from property owners on North Tenth street, for grade lines and the establishment of the width of that street between Kingwood and Ivy streets. It was asked that the width of the streets be determined at thirty feet. On motion the request was granted.

The money in the Firemen's Relief Fund, amounting to \$1,210.36, was ordered turned over to the Firemen's Relief Association.

Street Lighting

The report of the fire, light and water committee in regard to street lighting was presented. An understanding was arrived at, whereby the Water and Light Board will furnish current to the street lights free of all line repairs. The city is to pay for all lights and globes and see that they are kept in proper repair. The report was accepted.

The poor committee made a report, with certain recommendations in regard to handling the poor of the various wards, which report was accepted.

Cleaning Paved Streets

Alderman A. D. Peterson brought up the matter of cleaning paved streets, gathering up leaves, etc., so that catch basins would not become clogged. The matter was referred to the finance committee. The report of the finance committee was read and accepted.

The finance committee, in a report, recommending the placing of certain street lights was accepted, but the matter was laid over until the next meeting for action, some of the aldermen feeling that an audit of the city accounts should be made before definite action is taken.

The city clerk was requested to write the Water and Light Board, instructing it to bill on the Park Board for lights furnished in the various city parks.

Old Sewer Right of Way

C. W. Koering appeared before the council and offered to fill in the old sewer that crosses his property north of the fill and to give right-of-way and easement over his property for the general sewer for \$200. The council agreed to accept the offer, providing Mr. Koering will release the city from all claims for the general sewer as it crosses his property. He agreed to this provision.

South 5th St. Estimate

The city engineer's estimate for grading and paving South Fifth street between Laurel and Quince street was received. This estimate provides for a fifty-foot roadway on Fifth between Laurel and Maple streets, and two sixteen-foot roadways, one on either side of a center boulevard, between Maple and Quince streets.

The total improvement as estimated by the city engineer will cost \$19,197, of which the permanent improvement revolving fund amounts to \$14,165, to be paid by the property owners, and the city's share would be the balance, or \$5,032. This, according to the estimate would be about \$114 assessment against each 25-foot lot between Maple and Quince streets, and \$192 per lot between Laurel and Maple streets.

Night Riding of Bicyclists

An ordinance forbidding bicyclists riding at night without a light on their bicycle was given its first reading.

The fire, light and water committee recommended that the city retain the present contract with the Cuyuna Range Power Co., and that no new contract be entered into. This report was received and laid over to the next regular meeting.

All bills were allowed subject to the approval of the finance committee. All members of the council were present with the exception of Alderman C. H. Paine.

Miller-Ringering

On Saturday evening at the parsonage of the Bethany church Earl J. Miller and Mary M. Ringering were married by Rev. P. G. Fallquist. The witnesses to the ceremony were Godfrey E. Larson and Violet M. Larson. The newly weds will make their home in Brainerd.

GAVE LECTURE ON CHRISTIAN SCIENCE

(Continued from Page 3)

liability of repetition or relapse of the error is removed. This is how Christian Science proves itself to be the Holy Comforter of Spirit of truth foretold by Jesus, by holding out the hand of complete hope and healing to all sufferers, including those who are said to be beyond the power of material means.

The spiritual understanding of how rightly to resist ignorance, fear, and sin will prevent such thoughts taking effect in sickness, sin, and death. This spiritual understanding which all may acquire through the study of Christian Science, is not a blind faith in the intervention of a personal God, but quite the opposite; it is bringing thought into harmony with God, the divine Mind; it is the understanding that all disease and sin are nothing more than the false beliefs of life and intelligence in matter, which right thoughts about God and man will rightly resist and destroy. Such resistance is claiming man's spiritual oneness with God, with all the harmony and happiness this includes, and such claiming is the true believing which successfully resists evil and disease, and which constitutes true prayer to God.

Christian Science, understood and proved, not only cures all diseases, but consistently teaches how to prevent disease, and as a preventive it is worth even more to mortals than as a curative.

Prevention of fear is one of the chief functions of Christian Science, and its complete success in this would alone justify its holy mission. To abolish fear is to remove the exciting cause of most of mortals' troubles. Probably two-thirds of all disaster, pain, disease, and death is caused by fear.

Fear of disease of all kinds, fear of loss and poverty, fear of accident and suffering, fear of sin and fear of death, all fear, is the effect of a false belief of life, substance, and intelligence in matter. Change these thoughts with the ideas of Truth and Love, as taught in Christian Science, and you prevent and destroy the fear. Every one can master fear, ignorance, and sin, but to do this requires much more than blind faith, will-power, or suggestion. It requires an understanding of God, and of man as made in His likeness.

The likeness or image of Spirit is spiritual and not material. The real man today, therefore, is what he always has been, spiritual, the likeness or reflection of God, Spirit, and he is not this counterfeit false man, the likeness of matter. This consistent teaching of Christian Science is happily substantiated by the facts of healing and regeneration. Any one can prove it. Strict belief in one creator and one creation, the spiritual, will create in man thoughts of purity, harmony, strength, dominion, health, peace, and happiness, whereas belief in the reality of a second or material creator and creation produces thoughts of impurity, evil, discord, disease, decadence, and death. The one creation has no relation to the other; the line is sharply drawn by Christian Science. Only one creation is real, the material creation is false and unreal.

Mrs. Eddy writes in Science and Health (p. 267): "The offspring of God start not from matter or ephemeral dust. They are in and of Spirit, divine Mind, and so forever continue."

Jesus said, "Render therefore unto Caesar the things which are Caesar's, and unto God the things which are God's." That is all Mary Baker Eddy has desired. As a member of her household for eighteen months, I know this. I know that she rendered unto God the things which are God's, rendered unto Spirit only the things which are God's. She was a consistent child of God, a consistent Christian Scientist. She did not seek to blend good with evil, nor did she dress up evil and attempt to make it appear to be good, nor was she fooled by the deceitful material senses' deifying their own creation, and calling matter the creation of Spirit, God. It was her discernment of true creation that qualified her to be first to discover the Christ, Truth. In this age, Mary Baker Eddy was a Christian and a Scientist who consistently followed the teachings of Christ Jesus. She once wrote, "Follow your Leader, only so far as she follows Christ." (Message for 1902.) In her book Science and Health, she quotes from his teachings 255 times, and by daily living she has striven to fulfill all his commands, not alone the single commandment to preach the gospel, but the imperative ones to heal the sick, cleanse the lepers, raise the dead, cast out devils," since he said, "freely ye have received, freely give."

Christian Science has come to show that Jesus' promises must be fulfilled; that his rules and commands

BOY SCOUTS ENTERTAINED

Manager George Irwin Host to
Scouts at Wednesday Evening
Performance of "Robin Hood"

Through the courtesy of George Irwin, of the New Park theatre, the Boy Scouts of Brainerd and vicinity are to be given a chance to see "Robin Hood" at the Wednesday evening performance at 7 o'clock.

Admission will be by ticket ONLY, these tickets to be obtained from the scout executive at the scout office before 5:30 p. m. Wednesday, or at 6:30 p. m. in front of the court house where the scouts will assemble to march to the theatre.

In a letter received last week by Scout Executive Stimble from Douglas Fairbanks, Hollywood, California, there was enclosed a special message to the Boy Scouts of Brainerd, written with all of the pep that only Doug can put in his talks to boys. Fairbanks is now a scoutmaster, and has set out to organize a troop that will make a great record in scout efficiency.

"One of the best things in this little old world is enthusiasm," he wrote. "All boys have it, but when they grow up they often lose it, and that is one of the world's tragedies. To be successful you must be happy; to be happy you must be enthusiastic; to be enthusiastic you must be healthy, and to be healthy you must keep mind and body active. Whatever you undertake, whether it be grinding knives or building railroads, there will be plenty of competition. Learn the value of competition by competing with yourself. Make today's mark better than yesterday's, whether it be in deport-

Fur Coats of Style and for Service

The beauty of a fur coat is not all in its appearance. Its fine service and the comfort of it cannot but give one a feeling of the possession of an article that the wearer has every reason to be proud of.

And fur coats are not prohibitive in price. One can spend much or little. Women generally acknowledge that their money spent in fur coats brings big returns in comfort and general coat satisfaction.

"I HAVE yet to find a Standard Oil service station attendant who fails to reflect the ideals of service set forth in Standard Oil Company (Indiana) advertising."

Such was the comment of an observant man who had been expressing his opinion of service in industry.

It is but a composite of the general feeling among patrons of the Standard Oil Company (Indiana).

The spirit of service is highly developed in every employe of the Standard Oil Company (Indiana), whether he wears overalls or occupies a place on the directorate.

Every man and woman of the 27,000 employes making up the personnel of this Company is obsessed with but one ambition—to do his or her part in making the Company greater in size and in service.

Such a condition cannot prevail under the lash. If it is to endure the desire to serve must be inherent in the individual.

It is a natural development that follows fair dealing, camaraderie, pleasant working conditions, just treatment, skillful management—in short, intensive organization modernized to the last degree.

That the employe in overalls should reflect the Company's ideals of service is the result of highly intensified organization.

It is eloquent of the spirit prevailing throughout the organization—of the complete understanding of purpose, between the executives and those who are on the firing line making the last turn in the great cycle of Standard Oil service.

Where complete understanding exists there are no obstacles too difficult to overcome.

Complete understanding between the management and the employe has made the Standard Oil Company (Indiana) big in size and big in service.

Complete understanding between the Company and the thirty million people of the Middle West has caused the list of shareholders in the Standard Oil Company (Indiana) to increase in four years' time from 4,600 to 42,706—not one of whom owns as much as 6% of the total.

SATISFACTION GUARANTEED OR
MONEY CHEERFULLY REFUNDED

CITY GETS \$10,000 GROSS EARNINGS

Accepted Under Certain Conditions of
Refunding Portion, If Called
For

SOUTH 5TH ST. IMPROVEMENTS

New Shop Fence Being Erected Along
South Line of the Railway
Property

It was reported at the regular meeting of the city council on Monday night, that the ten thousand dollars, which is Brainerd's share of the five per cent of the gross earnings tax, has been received from the state. This money is accepted with the understanding that a refund will be made by the city to the state, should any other cities apply for a share of the gross earnings returns. On motion, the money was accepted subject to this provision.

This is the return which was allowed by a bill passed at the last session of the Minnesota legislature, giving cities in the state a portion of the gross earnings tax as paid by railroads, the share depending upon the amount of certain railway property in the city. The League of Minnesota Municipalities worked hard to have this bill passed, and deserves much credit for its passage.

South 5th St. Sidewalk Approaches

Joseph Hebert appeared before the council in regard to sidewalk approaches being installed on South Fifth street. On motion, these approaches were ordered in on streets running east and west across Fifth.

Certain citizens residing in South-east Brainerd in the vicinity of the railway shops appeared before the council in regard to a new shop fence being erected along the south line of the Northern Pacific property. The city engineer reported that this work had stopped pending a new survey of the shop property.

North Third Street Curbing

H. E. Kundert and Ashley McKinley appeared in regard to curbing and grading of North Third street between Holly and Bluff avenues. On motion the curb was ordered in, work to commence at once.

Alderman Holmstrom offered a resolution for the form of the \$18,700 bond issue and moved its adoption, seconded by Alderman G. A. Cain. All present voted aye and the resolution was declared adopted.

Marl on South 9th Street

The matter of applying marl to South Ninth street was again discussed at Monday night's meeting. At the last regular meeting this was brought up by Walter M. Murphy, and a great deal of interest was shown in the making of an experimental street, using marl as the base.

Mayor Con O'Brien requested the city engineer to make a statement of the probable cost of this work on South Ninth street, which statement could be shown the property owners affected thereby. He was advised that this cost would be about \$23 per fifty-foot lot, if the marl were disced and plowed in.

It was suggested that the sand and marl might be run through a mixer and then put on the street. T. H. Crowell, who is much interested in the experiment, offered to donate one hundred dollars toward the work, if the mixing process is used. Mayor O'Brien at the last meeting offered to donate \$200 toward the work. This matter is to be taken up with the property owners and a complete report made at the next regular meeting.

Milk Licenses

The following milk licenses were presented and recommended for allowance by the city dairy inspector: W. T. Canniff, Fred Larson and the Farmers Co-operative Creamery Association. On motion duly carried, all of these licenses were granted.

The city clerk reported that the fourteen thousand dollar revolving fund bonds have been retired as instructed at the last regular meeting.

A communication from the Home Insurance Co., was read, requesting that the company be released on the bond of the city treasurer which was not renewed for the present term of this official. The matter was referred to the finance committee.

Monthly Reports Read

The regular monthly reports were received from the clerk of the municipal court, the dairy inspector, the chief of police and the city nurse. All were accepted and ordered filed. These reports will appear later in the Dispatch.

Captain Jack O'Connell made application for a license to operate a shooting gallery the first of September, but no action was taken on the matter at that time. The license was granted on Monday evening.

Standard Lumber Co. Requests

The Standard Lumber Company re-

quested permission to move certain buildings from its present location on East Laurel street to its new property at the corner of Maple and South Seventh streets, and also asked the right to install a scale at the new location, all of which was granted.

Brainerd Foundry Co.

The Brainerd Foundry Company requested that the Northern Pacific Railway be given permission to put in a siding across Quince street to the new foundry property, from the main line track to St. Paul, and on motion this request was granted.

The matter of the bill put in to the council by Tom Wood for reimbursement for approach walk put in three years ago was not allowed. The same action was taken on a similar request from George H. Brown for an approach built in 1917.

North Tenth Street

A petition was received from property owners on North Tenth street, for grade lines and the establishment of the width of that street between Kingwood and Ivy streets. It was asked that the width of the streets be determined at thirty feet. On motion the request was granted.

The money in the Firemen's Relief Fund, amounting to \$1,210.36, was ordered turned over to the Firemen's Relief Association.

Street Lighting

The report of the fire, light and water committee in regard to street lighting was presented. An understanding was arrived at, whereby the Water and Light Board will furnish current to the street lights free of all line repairs. The city is to pay for all lights and globes and see that they are kept in proper repair. The report was accepted.

The poor committee made a report, with certain recommendations in regard to handling the poor of the various wards, which report was accepted.

Cleaning Paved Streets

Alderman A. D. Peterson brought up the matter of cleaning paved streets, gathering up leaves, etc., so that catch basins would not become clogged. The matter was referred to the finance committee. The report of the finance committee was read and accepted.

The finance committee, in a report, recommending the placing of certain street lights was accepted, but the matter was laid over until the next meeting for action, some of the aldermen feeling that an audit of the city accounts should be made before definite action is taken.

The city clerk was requested to write the Water and Light Board, instructing it to bill on the Park Board for lights furnished in the various city parks.

Old Sewer Right of Way

C. W. Koering appeared before the council and offered to fill in the old sewer that crosses his property north of the fill and to give right-of-way and easement over his property for the general sewer for \$200. The council agreed to accept the offer, providing Mr. Koering will release the city from all claims for the general sewer as it crosses his property. He agreed to this provision.

South 5th St. Estimate

The city engineer's estimate for grading and paving South Fifth street between Laurel and Quince street was received. This estimate provides for a fifty-foot roadway on Fifth between Laurel and Maple streets, and two sixteen-foot roadways, one on either side of a center boulevard, between Maple and Quince streets.

The total improvement as estimated by the city engineer will cost \$19,197, of which the permanent improvement revolving fund amounts to \$14,165, to be paid by the property owners, and the city's share would be the balance, or \$5,032. This, according to the estimate would be about \$114 assessment against each 25-foot lot between Maple and Quince streets, and \$192 per lot between Laurel and Maple streets.

Night Riding of Bicyclists

An ordinance forbidding bicyclists riding at night without a light on their bicycle was given its first reading.

The fire, light and water committee recommended that the city retain the present contract with the Cuyuna Range Power Co., and that no new contract be entered into. This report was received and laid over to the next regular meeting.

All bills were allowed subject to the approval of the finance committee. All members of the council were present with the exception of Alderman C. H. Paine.

Miller-Ringing

SPORTS

HUGGINS, THE REAL THING, SAYS FARRELL

By HENRY L. FARRELL
United Press Sports Editor

New York, Oct. 2.—In winning his third straight American League pennant with the New York Yankees, Miller Huggins, the little manager of the team, accomplished something that should rate for him a place among the real managerial leaders of baseball.

Huggins never has been able to get the credit that he deserved for meritorious performances in the past, largely because he did not seek glory or the spotlight, and even now, when any other manager would be acclaimed for taking three pennants in succession, the little Yankee boss is still being panned.

New York never has taken to Huggins and the comment is still being heard that anyone ought to win a flock of pennants with a million dollar team and that the Yankees won the pennant again this year, not because of their manager, but in spite of him.

Huggins lacks the spectacular color of McGraw, he is not a mixer like Uncle Wilbert Robinson, he is not as picturesque as Kid Gleason and he lacks the outward qualities of leadership that are embodied in Frank Chance. He seldom deserts the darkness of the dugout and he goes about his way quietly and gets results.

The Yankee manager has shown no great ability as a developer of young players since he took the New York club, although he has had a part in making Ward and Meusel. But in his position no other manager would care to saddle himself with the responsibilities and gamble with young players. Developing youngsters is a big problem. Connie Mack has failed at it for seven years, and Mack had a great reputation for bringing along young players.

When Huggins was given the Yanks he was commissioned to get a winner and something to compete against the Giants as an attraction. Had Huggins been the greatest miracle man in the world in developing young players, he could not have gotten together a pennant winning team in the short space of time demanded by his employers.

He found himself in a fortunate position where the owners were willing and able to buy the players that Huggins decided would work well with his combination.

Huggins at least did show some real good judgment in buying players. No other great stars that Huggins let go can be found on other teams like the castoffs of the Giants in the National League. The players that Huggins disposed of never caused him a regret while those he acquired delivered for him better than they were expected to do.

The smartest move made by Huggins was his recommendation for the purchase of Babe Ruth. The great Swat King proved a very profitable investment for the club owners after they were accused of being crazy by rival club owners for paying such a huge sum of money for the Babe.

The craftiness of the little manager was also shown last winter when he secured Herb Pennock from the Boston Red Sox. His critics said he was foolish to dispose of young Murray, a promising pitcher; McMillan, a young infielder, and other players in the deal, but those players failed to make good with the Red Sox, and Pennock, who had been regarded as through, turned out in his new uniform to be one of the best pitchers in the league.

Even with a million dollars behind him and the permission to buy and sell as the manager sees fit, it is not a cinch to go out and make no mistakes on the market.

Huggins has made few mistakes in his investments.

CARPENTIER K. O.'S BECKETT IN 20 SECONDS

London, Oct. 2.—It took Georges Carpentier, the French fighter, just about 20 seconds last night to put the quietus on the championship aspirations of Joe Beckett, who holds the heavyweight title in Great Britain. Carpentier used both lefts and rights in a brief series of exchanges, and Beckett remained on the floor for the final count.

TOMMY GIBBONS ANXIOUS FOR MATCH

San Diego, Calif., Oct. 2.—Tommy Gibbons is ready and anxious to meet Georges Carpentier, Eddie Kane, manager of Gibbons, said today. Kane expressed the opinion that the fight would draw an immense crowd at Tiajuana, where Gibbons is a great favorite. He said that the Pantages vaudeville circuit for which Gibbons is now doing a tour had agreed to release him for a fight at Tiajuana with either Carpentier or Dempsey.

OKLAHOMA CITY WINS WESTERN LEAGUE FLAG

Oklahoma City, Oct. 2.—Oklahoma City won its first Western league pennant when the Tulsa Oilers dropped a doubleheader to Omaha while the Oklahoma City team was idle because of wet grounds. Oklahoma City's margin of victory is two full games.

Wichita, pacemaker the greater part of the season, wound up in third place with Omaha, considered one of the most dangerous contenders from the start, completing the first division.

Leadership of the second division goes to Des Moines, St. Joseph, Sioux City and Denver finished in the order named.

Zupke to Drill Hard For Nebraska Saturday

Urbana, Ill., Oct. 2.—Coach Zupke has started to iron out wrinkles in his varsity football team in preparing for the Nebraska game Saturday. Zupke gave his squad a sound talking to and pointed out their faults, which showed up in the freshman game Saturday. The principal weakness was observed in the substitutes. Zupke is hard put in developing men to take the place of his regulars. Wagner, veteran tackle, was put in the fray Saturday, but failed to exhibit ability of which he is capable. Rune Clark showed speed, but lacked judgment and fumbled.

Duluth Defeats Akron In Thrilling Game, 10-7

Duluth, Oct. 2.—Duluth won its start in the National Football league winning from the famous Akron eleven, 10 to 7.

The winners' touchdown was made via the air route, while Joe Sternaman, former Illinois star, drop kicked for the 3 points.

Akron worked the ball down the field from the 30 yard line, four forward passes gaining 65 yards. Three bucks at the line failed to put the oval over, but the fourth was successful.

Dick Ferris Sponsors 'Betless' Race Track

Dick Ferris, former Minneapolis sportsman and theatrical man, with his associates of the Southern California Jockey club, will control a "betless" race track at Culver City, a suburb of Los Angeles. Ground was broken with many person prominent in sports and motion pictures in attendance. The sponsors of the venture say the track will be ready Dec. 15.

KITCHEN BOUQUET

GAVE LECTURE ON CHRISTIAN SCIENCE

(Continued from page 5)

cannot be escaped. Excuse, evasion, procrastination, pride, ingratitude, fear, or ignorance will never get a man into heavenly harmony, for "whatsoever a man soweth, that shall he also reap." Said Jesus, "Not every one who saith unto me, Lord, Lord, shall enter into the kingdom of heaven; but he that doeth the will of my Father which is in heaven."

The relation of the human Jesus to the spiritual idea, the Christ, is an essential tenet in the teaching of Christian Science: it is vital to the understanding and demonstration of its divine Principle. For centuries the world has been working up to this point. For centuries the deifying of matter and the personalizing of Spirit have limited, confused, and negative Christian prayers, so that the healing Christ, as the idea of divine Principle, as the Son of God, as the idea of omnipotence and omnipresence, has practically been lost sight of in the healing and saying of mortals hence the delay and disappointment in Christian efforts. No wonder God is humanized and mortals deified, and healing and saving results are reversed when the way to God, the light of the world, is practically obscured and unused. Jesus said, "Without me ye can do nothing." Jesus demonstrated the Christ, and Christian Science shows he did this, not with blind faith, but through his understanding of divine Principle, of the openness and aliveness of divine Mind, Spirit. This Christ, Truth, or true idea of God, this spiritual sense, casts out all thoughts of evil, fear, and sickness, and frees mortals from the physical ills called disease and death.

The works that I do, Jesus said, shall he that believeth on me (understandeth me) do also; "and greater works than these shall he do." It is the privilege and it is the duty of every man, woman, and child to obey these imperative commands.

to work out his own salvation, to follow in Jesus' steps. All must sooner or later take these footsteps, for there is no other way under heaven by which man may be saved.

All must appreciate that in God's infinite nature and wisdom, He must naturally provide His own interpreter. Jesus called this interpreter the Holy Ghost or Holy Comforter, a light which the darkened thought could not comprehend, but which came to Jesus in full radiance, and which he said would be revealed to that thought which was born "not of blood, not of the will of the flesh, nor of the will of man, but of God." In the ripeness of time, in accord with Jesus' prophecy, the light of the Holy Comforter has again come, is again discovered, and a multitude of good people with joy and gratitude acclaim Christian Science to be this divine Comforter in this age.

Hibbing Triumphs in
St. Paul Ideal Game

Hibbing, Oct. 2.—With the Hibbing line and backfield working with machine-like precision, the Hibbing All Stars, claimants of the state professional football championship, overwhelmed the St. Paul Ideals here Sunday 48 to 0.

This was the worst defeat suffered by the Ideals in the many seasons that the eleven has been together. Coach Buland started an almost new backfield, and the line was somewhat changed. After Ursula went over for a touchdown, soon after the beginning of the second quarter, one touchdown followed another.

Mary Miles Minter and Maurice (Lefty) Flynn in a scene from the Paramount Picture 'DRUMS OF FATE'

Showing at the Lyceum Tonight Only
Unable to find a circus in London The picture folk much enjoyed their two weeks' association with the circus people, following up the big tent outfit as it moved from place to place. Unforgettable for most of them were the days at the little old-world township of Caudebec-en-Caux, where the inhabitants vied with each other to give the first moving picture company they had ever had in their midst, a hearty welcome and a pleasant time.

SCENE FROM 'DOUGLAS FAIRBANKS IN ROBIN HOOD'

Fairbanks Breaks Production Records
Usually stories laden with statistics are boring rather than entertaining or instructive. However, in the case of "Douglas Fairbanks in Robin Hood," a United Artists release showing at the New Park tonight, Wednesday and Thursday, an exception can be noted, due to the unbelievable speed with which this gigantic production was "shot" was due to the remarkable organization with which Mr. Fairbanks surrounded himself.

He put at the head of each department the most thoroughly competent man obtainable, regardless of price.

HUGGINS, THE REAL THING, SAYS FARRELL

By HENRY L. FARRELL
United Press Sports Editor

New York, Oct. 2.—In winning his third straight American League pennant with the New York Yankees, Miller Huggins, the little manager of the team, accomplished something that should rate for him a place among the real managerial leaders of baseball.

Huggins never has been able to get the credit that he deserved for meritorious performances in the past, largely because he did not seek glory or the spotlight, and even now, when any other manager would be acclaimed for taking three pennants in succession, the little Yank boss is still being panned.

New York never has taken to Huggins and the comment is still being heard that anyone ought to win a flock of pennants with a million dollar team and that the Yankees won the pennant again this year, not because of their manager, but in spite of him.

Huggins lacks the spectacular color of McGraw, he is not a mixer like Uncle Wilbert Robinson, he is not as picturesque as Kid Gleason and he lacks the outward qualities of leadership that are embodied in Frank Chance. He seldom deserts the darkness of the dugout and he goes about his way quietly and gets results.

The Yankee manager has shown no great ability as a developer of young players since he took the New York club, although he has had a part in making Ward and Meusel. But in his position no other manager would care to saddle himself with the responsibilities and gamble with young players. Developing youngsters is a big problem. Connie Mack has failed at it for seven years, and Mack had a great reputation for bringing along young players.

When Huggins was given the Yanks he was commissioned to get a winner and something to compete against the Giants as an attraction. Had Huggins been the greatest miracle man in the world in developing young players, he could not have gotten together a pennant winning team in the short space of time demanded by his employers.

He found himself in a fortunate position where the owners were willing and able to buy the players that Huggins decided would work well with his combination.

Huggins at least did show some real good judgment in buying players. No other great stars that Huggins let go can be found on other teams like the castoffs of the Giants in the National League. The players that Huggins disposed of never caused him a regret while those he acquired delivered for him better than they were expected to do.

The smartest move made by Huggins was his recommendation for the purchase of Babe Ruth. The great Swat King proved a very profitable investment for the club owners after they were accused of being crazy by rival club owners for paying such a huge sum of money for the Babe.

The craftiness of the little manager was also shown last winter when he secured Herb Pennock from the Boston Red Sox. His critics said he was foolish to dispose of young Murray, a promising pitcher; McMillan, a young infielder, and other players in the deal, but those players failed to make good with the Red Sox, and Pennock, who had been regarded as through, turned out in his new uniform to be one of the best pitchers in the league.

Even with a million dollars behind him and the permission to buy and sell as the manager sees fit, it is not a cinch to go out and make no mistakes on the market.

Huggins has made few mistakes in his investments.

CARPENTIER K. O.'S BECKETT IN 20 SECONDS

London, Oct. 2.—It took Georges Carpentier, the French fighter, just about 20 seconds last night to put the quietus on the championship aspirations of Joe Beckett, who holds the heavyweight title in Great Britain. Carpentier used both lefts and rights in a brief series of exchanges, and Beckett remained on the floor for the final count.

TOMMY GIBBONS ANXIOUS FOR MATCH

San Diego, Calif., Oct. 2.—Tommy Gibbons is ready and anxious to meet Georges Carpentier, Eddie Kane, manager of Gibbons, said today.

Kane expressed the opinion that the fight would draw an immense crowd at Tiajuana, where Gibbons is a great favorite. He said that the Pantages vaudeville circuit for which Gibbons is now doing a tour had agreed to release him for a fight at Tiajuana with either Carpentier or Dempsey.

OKLAHOMA CITY WINS WESTERN LEAGUE FLAG

Oklahoma City, Oct. 2.—Oklahoma City won its first Western league pennant when the Tulsa Oilers dropped a doubleheader to Omaha while the Oklahoma City team was idle because of wet grounds. Oklahoma City's margin of victory is two full games.

Wichita, pacemaker the greater part of the season, wound up in third place with Omaha, considered one of the most dangerous contenders from the start, completing the first division.

Leadership of the second division goes to Des Moines, St. Joseph, Sioux City and Denver finished in the order named.

Zupke to Drill Hard For Nebraska Saturday

Urbana, Ill., Oct. 2.—Coach Zupke has started to iron out wrinkles in his varsity football team in preparing for the Nebraska game Saturday. Zup gave his squad a sound talking to and pointed out their faults, which showed up in the freshman game Saturday. The principal weakness was observed in the substitutes. Zup is hard put in developing men to take the place of his regulars. Wagner, veteran tackle, was put in the fray Saturday, but failed to exhibit ability of which he is capable. Rune Clark showed speed, but lacked judgment and fumbled.

Duluth Defeats Akron In Thrilling Game, 10-7

Duluth, Oct. 2.—Duluth won its start in the National Football league winning from the famous Akron eleven, 10 to 7.

The winners' touchdown was made via the air route, while Joe Sternaman, former Illinois star, drop kicked for the 3 points.

Akron worked the ball down the field from the 30 yard line, four forward passes gaining 65 yards. Three bucks at the line failed to put the oval over, but the fourth was successful.

Dick Ferris Sponsors 'Betless' Race Track

Dick Ferris, former Minneapolis sportsman and theatrical man, with his associates of the Southern California Jockey club, will control a "betless" race track at Culver City, a suburb of Los Angeles. Ground was broken with many person prominent in sports and motion pictures in attendance. The sponsors of the venture say the track will be ready Dec. 15.

Mary Miles Minter and Maurice (Lefty) Flynn in a scene from the Paramount Picture "DRUMS OF FATE"

Showing at the Lyceum Tonight Only
Unable to find a circus in London The picture folk much enjoyed their two weeks' association with the circus people, following up the big tent outfit as it moved from place to place. Unforgettable for most of them were the days at the little old-world township of Candebeccen-Caux, where the inhabitants vied with each other to give the first moving picture company they had ever had in their midst, a hearty welcome and a pleasant time.

SCENE FROM "DOUGLAS FAIRBANKS IN ROBIN HOOD"
Fairbanks Breaks Production Records
Usually stories laden with statistics are boring rather than entertaining or instructive. However, in the case of "Douglas Fairbanks in Robin Hood," a United Artists release showing at the New Park tonight, Wednesday and Thursday, an exception can be noted, due to the unbelievable speed with which this gigantic production was "shot" was due to the remarkable organization with which Mr. Fairbanks surrounded himself.
He put at the head of each department the most thoroughly competent man obtainable, regardless of price.
